

ANN ANNICE PAUL

Software Engineer

OBJECTIVE

Software development professional prepared for high-impact roles within technology-driven environments. Extensive background in designing and optimizing software solutions, with commitment to delivering high-quality results. Known for effective teamwork and adaptability, with key skills in coding and system architecture.

EXPERIENCE

Software Engineer

NeST Digital Pvt Ltd - Kakkanad, Kochi

- Engineered a real-time Patient Monitoring System using Java, Spring Boot, and Angular, streamlining critical healthcare workflows and data delivery.
- Architected scalable REST APIs and secure database integrations (Oracle SQL) to handle high-throughput, live medical data.
- Containerized and deployed microservices using Docker and Kubernetes, optimizing system reliability and application performance.
- Leveraged Microsoft Suite to synthesize complex database metrics in Excel, author technical specifications in Word, and streamline Agile sprint tracking.
- Collaborated in an Agile environment to rapidly resolve production bottlenecks, analyze complex requirements, and deliver high-quality software.
- Utilized the Microsoft 365 Suite to map data dictionaries in Excel for Oracle SQL integrations and author comprehensive system compliance documentation in Word.

EDUCATION

MCA, Master of Computer Applications, 01/2022

Vidya Academy Of Science And Technology - Thrissur

GPA: 8.65

BCA, Bachelors of Computer Applications, 01/2019

St Thomas College AUTONOMOUS - Thrissur

GPA: 70

DECLARATION

I solemnly declare that all the information furnished above are true to the best of my knowledge and I hold the responsibility for the correctness

CONTACT

Email: Anizann98@gmail.com

TECHNICAL PROFILE

- Frontend: HTML, CSS, JavaScript, ReactJS
- Web Framework: Spring, Angular
- Programming Language: Java, Python, PHP
- API: RESTful API
- Microservices architecture
- Databases: Oracle SQL, MongoDB
- Cloud Services: Azure
- Docker orchestration
- DevOps Practices
- Agile Methodologies
- Software testing tools
- Version Control

ACADEMIC PROJECTS

Rumor Identification in Microblogging Systems (PYTHON)

Inventory Management System (PHP)

Cloud Media Security (Machine Learning with PYTHON)

of the above-mentioned particulars.
